# The Definitive collection

high performance vertical sliding sash windows offering **timeless elegance**

## our philosophy...

The philosophy for *The Definitive Collection* was driven by our desire to offer you products that have been designed and manufactured with a 'no compromise' attitude.

Regardless of the style of property you live in, we are sure to have a perfect solution to meet your design aspirations.

High performance solutions are available to suit any application, whether you are looking for a sympathetic door replacement for your 18th century farmhouse, or a more contemporary look for a modern house or city centre apartment. You can even have your window in any colour you want! Your decision..Your choice...

## our vertical sliding sash windows have a timeless elegance, made with beautiful proportions and symmetry.

They have the true looks of the original timber sash window of a distinguished era for which they replace, retaining all of the character of the property itself.

### modern day high performance

Individually measured, they offer outstanding energy saving, exceptional weather proofing and are low maintenance, as well as added safety and security for peace of mind.

### investment

Make a wise investment, one that will enhance the appearance of any home - period, or contemporary, town or country which discerning homeowners will truly adore.

### style & glazing options

Select from a number of styles, all beautifully made to match the window for which they are replacing. Available in 50/50 split, 1/3rd over 2/3rd and 2/5ths over 3/5ths configurations.

The traditional Georgian glazing bar arrangement may also be replicated by concealing the glazing bars within the double glazed unit, or by surface mounting the bars onto the external faces of the double glazed unit.

### balances

Instead of weights, pulleys and a cord to hold the sashes in position, they feature a pair of sophisticated spring balances to take over the sash retention. The benefit is that it gives a reliable and smooth glide operation of the opening sash.

### 'tilt & open' feature

An ingenious 'tilt inwards' opening facility allows for easy cleaning from the inside.

### truly authentic detail

Ring pull to ease opening and closing

Safety restrictor\*

Locking 'cam catches' and night ventilation\* (available in gold or chrome effect finish)

Decorative horn detail\*

Sash lifts

Deep bottom rail with traditional jointing\*

Decorative Horn with traditional jointing\*

\*These are optional features

# Timeless Elegance

Crafted with attention to detail, our vertical sliding sash windows combine the functional benefits and performance of a modern PVCu window with the feel, aesthetic appeal and operational simplicity of a traditional wood window.

The modern sash not only emulates the aesthetics of their traditional timber equivalent, but they also offer additional benefits...

-  High weather performance characteristics
-  Releasable restrictors
-  A night vent position
-  Improved security locking
-  A tilt facility to allow cleaning from the inside
-  Excellent thermal capabilities
